Summary

I'm a dedicated MERN Stack Developer with a strong foundation in building responsive, scalable web applications using React.js, Node.js, Express.js, and MongoDB. I'm skilled in developing RESTful APIs, implementing secure authentication systems, and crafting modern, user-friendly interfaces using tools like Tailwind CSS and Bootstrap. My approach focuses on clean code, performance optimization, and real-time features that enhance user experience. I'm also confident working with tools like JWT, Git, Postman, and Socket.IO, and I'm comfortable adapting to new challenges in fast-paced environments.
